

CARNEGIE'S SCHEME.

Non-Union Men to Be Placed in the Homestead Mills.

SOME ALREADY AT WORK.

Smoke Seen Issuing from the Great Smokestacks — Locked-Out Men Endeavor to Enter the Mills but are Prevented from So Doing by the Militia.

HOMESTEAD, Pa., July 16.—Preparations for placing non-union men in the Carnegie mills are going forward. The steamer Tide came up the river from Pittsburgh yesterday, and proceeded direct to the landing place at the works. A gang of men were waiting for her, and her freight, consisting of cots, blankets, canvas and camp utensils, was unloaded and placed inside the mill property.

The poor farm property, which is inside the big fence and is now the property of the Carnegie company, contains a big level field which will make a good camping ground for workmen, and the large building which has been used for the county poor will hold a number. It is evidently the intention of the Carnegie people to utilize this portion of their plant, which is located so admirably for the purpose as to suggest the possibility that the present emergency was expected and carefully prepared for long in advance.

There is no doubt that non-union workmen are now inside the gates of the Carnegie plant, but their number is so small that they are practically a dead letter in connection with the operation of the mills. These men entered the works quietly at an hour when suspicion was still and arrangements for their comfort until a larger force comes to join them have been made. Some of them are believed to have entered by the river front while others come by train to Homestead and mingled with the people without exciting suspicion.

Their number can not be ascertained, but it is certain that no great body of men, such as would be required to run the works, could have entered the mills without being seen. If these non-union men came in Thursday night or in the early hours of the morning they must have displayed some generalship in eluding the many watchers who sat along the river banks or near the entrances to the Carnegie property until daybreak.

Smoke seen issuing from the chimneys of two of the Carnegie mills for a short time yesterday caused the suspicion to become prevalent that non-union men were in the works. This suspicion died out with the smoke, however, and while the presence of the latter can not be explained, the workmen feel confident that the fires from which it came were not built to start the mills. Last night more smoke was seen issuing from what is known as the cupola chimney, and the cause of this too remains a mystery. Information on the subject is not obtainable from the mill offices. Yesterday morning when the smoke began to issue from the mills, some workmen who saw it made a dash for one of the gates and were kept back at the point of the bayonets of the military guard. At least this is what an officer in authority says.

The leaders of the strikers wear an air of supreme confidence. They say that they have won the fight and that the Carnegie company realize this or will realize it when they have tried the experiment of running the works for a few weeks with green hands. All interest centers in the probable introduction of enough non-union men to start the mills, and the strikers spend most of their time discussing this phase of the situation. Some are inclined to think the Carnegie company will win, but there does not appear to be any indications of acquiescence in the statement of Mr. Lovejoy, secretary to Mr. Frick, that fully two-thirds of the Homestead workers will go back to their vacant posts when the mills are started.

A number of incidents tending to encourage the locked-out men in their position happened yesterday. Allen Hubbard, the foreman of the armor plate shop of the Carnegie mills, quit work. He refused to work under police protection, and declared that if the militia was to be used for police duty in order to operate the mills he would not work there, but would seek employment elsewhere. The entire force of the civil engineering department of the mills also quit work out of sympathy with the locked-out men.

Thirty-five bricklayers, who are employed by the Carnegie company, but are not members of the Amalgamated association appeared before the advisory committee yesterday evening and stated that they would not do any work for the company until the trouble with the steel workers is settled. The committee claims to have similar pledges from the machinists, carpenters and other mechanics who will be needed to repair the furnaces and machinery before work is resumed. The locked-out men declare it impossible to start the mills without the assistance of these men, and they are jubilant.

FROM PITTSBURG.

State of Affairs as Viewed from the Smoky City.

PITTSBURG, July 16.—Secretary Lovejoy, of the Carnegie Steel company, said yesterday evening that the employees of the Twenty-ninth and Thirty-third street mills, now on a strike, had been verbally informed that their failure to return to work by Monday of next week would be considered by the firm as a cancellation of the existing agreement, and that when those mills do resume it will be as non-union and no one will be treated with in this matter except as individuals. This ultimatum is final, as is the one given the Homestead men.

It has been supposed that the strikes of the upper and lower Union and Beaver Falls mills were not lawful, but a clause in the constitution of the Amalgamated association gives the necessary authority, as construed by one of the officials. Section 20, of the by-laws, reads that until the scale, as arranged in convention, shall have been signed by all the departments in every mill, the workmen shall remain idle; and demands that the scale be signed by all departments. This section is construed by the Amalgamated officials as meaning the scale must be signed by all the departments in every mill owned by one company. Consequently the strikers at Beaver Falls and the upper and lower Union mills, while the Homestead scale has not been signed, are justifiable, and the men in those mills will receive the support of the general officers. The section is also taken to mean that a strike, even after work has been resumed, is right.

The peaceful aspect of the streets in Lawrenceville would not lead a stranger to suspect that a strike at the Carnegie Union mills, in which several thousand men are involved, was in progress. A number were interviewed by a reporter yesterday evening and they denied emphatically that any of their brethren had weakened in the strife by wishing themselves back at work, as has been reported.

A committee from the Union mills will proceed to Beaver Falls at once where a final meeting will be held to decide whether work will be resumed at the latter place Monday.

The strikers claim they have ample funds to keep them alive for a year, if necessary.

It is understood that the Carnegie Steel company had a large contract for iron beams for the world's fair buildings at Chicago.

INVESTIGATION COMMITTEE.

Chairman Oates Interviewed on the Subject.

WASHINGTON, July 16.—The subcommittee of the house judiciary committee which went to Pittsburgh to investigate the trouble at the Homestead mills returned to Washington yesterday. Chairman Oates said that the committee did not find matters, from its standpoint, as serious as represented through the press. The committee, he said, had not time to go into the entire matter as they wished to do, but they gave all parties an opportunity to explain their position.

"We examined Mr. Frick," continued Mr. Oates, "and his superintendent, and Mr. O'Donnell and a number of the workmen as you have seen. Frick is a remarkably cunning fellow and is a great manager. He has one of the brightest lawyers I have met to advise him. The leaders of the workmen are men of intelligence and capacity, and take the workmen as a body, they are the best set of workmen I have ever come across. The contention is not one between ignorance and power. It is a conflict of strong men, the workmen being keen, intelligent and always wide awake. In this contest neither side is acting on impulse. They are deliberate and guided by intelligence, and it is the meeting of two great forces."

"How do you think it will end?" "You know how these things end generally. Law and order must be vindicated in the long run, even if there is a conflict between the statutes and the equities of the case."

"Do you think there will be further trouble?" "Yes, I do. I think there is bound to be more bloodshed, and probably a great deal of it. The workmen are the most determined men you ever saw. They do not claim to have the right of law with them, but insist that they are morally right and will hold to their position. I think the Carnegie people intend to open their works with non-union men. As soon as the troops have been withdrawn the strikers will, I believe, attempt to prevent the mills being run by non-union men. There will then be a fight, I believe, a desperate fight, and a great deal of bloodshed. This seems to me to be inevitable, in view of the sentiment there."

The investigation will be continued in Washington with regard to the Pinkerton agency, and the committee hope to be able to make a report on the Homestead portion of it before congress adjourns for the session. It is the general opinion that the committee will report this part of the case is not a subject for federal legislation or interference.

Labor Meeting in New York.

NEW YORK, July 16.—About 5,000 people gathered at a meeting held at Union Square last night under the auspices of District Assembly 49, Knights of Labor, to denounce the action of Carnegie, Pinkerton and Frick and endorse the action of the Homestead workmen. George Francis Train was among those present. A long series of resolutions were adopted, which, among other things, demand that congress should regard the Pinkertons as pirates, and that they with their employers, H. C. Frick and William and Robert Pinkerton, should be indicted, tried and sentenced and executed as national malefactors. Also demanding that the United States government should withhold its patronage from "scab" goods produced by the Carnegie firm.

Colored Men En Route to Homestead.

CARLISLE, Pa., July 16.—A large party of colored laborers hailing from Alabama passed through this city on the Cumberland Valley last night en route for Pittsburgh. They are thought to be on their way to Homestead to take the strikers' places. When asked by a United Press representative if they intended to work in the Homestead mills they evaded the question.

Beaver Falls Men to Strike.

BEAVER FALLS, Pa., July 16.—The members of the Amalgamated association in this place, employed in Carnegie's mills, held a meeting yesterday at which they decided to strike. They will hold another meeting, open to the

public, at which a committee from Pittsburgh will be present. It is not known when the strike will go into effect.

Carnegie's Non-Union Men.

PITTSBURG, July 16.—A Braddock special says that the Carnegie employees at the Edgar Thompson steel works (non-union) will not join the ranks of the strikers.

The employees at the Duquesne steel works are divided in their opinion and have not yet determined upon a definite line of action.

THE TROUBLE IN IDAHO.

Non-Union Men Put to Work by the Aid of Troops.

WARDNER, Ida., July 16.—Three passenger coaches loaded with the non-union men who were recently sent out of the county, returned here at 2 o'clock yesterday afternoon. They were escorted by a special train loaded with regular troops. The trip to Wardner was uneventful. General Carlin had 400 troops drawn up around the Bunker Hill and Sullivan mills and the railroad depot. The strictest martial law was enforced, and there was not the slightest sign of disturbance while the non-union men were being unloaded.

The returning non-union men were armed with Winchester. At the station they gave up their rifles and marched unarmed to their destination. The men who were escorted up to the Bunker Hill and Sullivan mine, one and a half miles up the gulch through the camp of Wardner, were heavily guarded. General Carlin issued a proclamation calling upon all the members of the miners' union to surrender. He later issued another order commanding all the strikers to be arrested wherever found and disarmed and imprisoned. He also dispatched searching squads to Fourth of July canyon to hunt for dead bodies. He thinks that the men who were killed were thrown into the river.

When the arrival of the troops became known, the last twenty men of the Bunker Hill and Sullivan mine force, who did not surrender at the time of the exodus of the other men of the mine, had taken to the brush armed and had been in hiding ever since. They were greatly exhausted. The troops found them fortified in the mine. They were relieved by a company of soldiers, who permitted them to rest and sleep. The entire working force of the mine will pick up tools at once and begin operations in the mine.

At 4 o'clock the troops began scouring Wardner, bringing in union men and placing them in confinement in the guard house in the camp on the ball grounds. Fred E. Dean, secretary of the union, was among the first arrested. President O'Brien was another. At Wallace also it is reported arrests are being made. The Cœur d'Alene is virtually in the hands of the military. Unless the union men commit some act of violence soon the time for such conduct will be past. The men at the mine will be supplied with Winchester by the owners to protect the property.

FUNERAL OF CYRUS W. FIELD.

Buried Beside His Wife That Died Only a Few Months Ago.

BARRINGTON, Mass., July 16.—The body of Cyrus W. Field reached Stockbridge at 1:30 yesterday afternoon. It was met at the station by ministers and friends and taken at once to the historic Congregational church where his father, David Dudley Field, was rector for many years. Here the body was met by the Reverends Bottoms and Farwell and the Congregational burial services gone through. The choir sang "Jesus, Lover of my Soul" and "Nearer My God to Thee." Short prayers were then offered by the Rev. Mr. Farwell.

The body was then taken to the Field plot in Stockbridge cemetery. Two stops were made between the church and the cemetery. While the funeral procession of twenty-five carriages drove to the church and the body was being carried to the cemetery, the chimes presented to the town by David Dudley Field were tolled. At the entrance to the cemetery the body was met by the Rev. Mr. Bottoms and taken to the burial plot where the Episcopal service was conducted. The grave was beside that of his wife, who was buried April 30. He grave was decorated with cut flowers.

MORE RETURNS.

Result of Yesterday's Election in England.

LONDON, July 16.—Election returns show that the total now stands 259 Conservatives, 253 Liberals, 42 Liberal Unionists, 59 Nationalists, (anti-Parnellites) 8 Parnellites; net Liberal gain 51. The features of yesterday's returns have been the election of Sir Charles Dilke in the forest of Dean, and the election of Joseph Arch in Nord. Sir Charles received a majority which will be his strongest answer to the jurists who criticize his return to parliament.

It is not the first time that Joseph Arch, the man who was born to the plough, has beaten Lord Henry Cavendish Bentinck for parliament, but his success none the less emphasizes the energy and resolution with which the agriculturalists of England have come to the rescue of the Liberal party in a contest that seemed at least doubtful before the county constituencies were polled.

Base Ball.

At New York—New York 8, Pittsburgh 8; game called on account of darkness at the end of the twelfth inning.

At Baltimore—Baltimore 5, Cincinnati 2. At Washington—Washington 3, Cleveland 1.

At Boston—Boston 3, St. Louis 20. At Brooklyn—Brooklyn 5, Chicago 4. At Philadelphia—Philadelphia 9, Louisville 1.

COLUMBUS, O., July 16.—D. J. Flynn, an aged farmer living near Hilliards, was cut to pieces by a mower while cutting grass. His horses ran away.

FARMERS STARVING.

Two Thousand People Made Homeless by an Overflowed River.

BIRMINGHAM, Ala., July 16.—Advices received from the Tombigbee bottoms, in Sumter county, show that 2,000 people are homeless and starving from the floods in that county. Governor Jones' proclamation for aid is being liberally responded to on all sides. The damage done crops is nearly \$1,000,000.

Three rivers penetrate the county—the Tombigbee, Noxubee and Sucanoochee. It has rained for two weeks every day and the rivers have overflowed half of the entire county, destroying all crops, washing houses away and leaving nothing for the inhabitants to subsist on.

The water is higher than ever before known and keeps rising all the time, while rain continues to fall.

Many negroes are actually dying. Mayor Lane, of this city, appointed a committee to canvass for aid, and they are at work. Similar committees have been at work all over Alabama. If rain continues there will be great loss of life, as the entire county will be flooded. The town of Gainesville is surrounded by water now, and the river is still rising. The flood extends northward into Mississippi, where much damage has been done to crops.

Letters are pouring in from Gainesville, Sumter county, to Governor Jones, stating that the people had been rendered destitute by the overflow, and asking him to appeal to congress for their relief.

One letter says: "The people are without the means of subsistence even for twenty-four hours."

Another states that a large population along the creeks and in the Tombigbee bottoms are absolutely starving, and their sufferings are increasing every hour.

The governor has wired for further particulars, and is doing everything possible to hurry supplies and money to the destitute people.

FIRE IN PITTSBURG.

Summer Hotel, Restaurant, and Power House on an Incline Plane Burned.

PITTSBURG, July 16.—The summer hotel, restaurant and garden, together with the power house and hoisting machinery at the head of the Pennsylvania incline plane, which extends from Sixteen street over the Pennsylvania railroad tracks 1,000 feet at an incline of thirty-five degrees, to the top of the high bluff near Union station, was entirely destroyed by fire yesterday afternoon. Loss about \$125,000, partly insured.

One of the heavy incline cars hangs in a very dangerous position over the side of the bluff, held in place only by the wire cable, which is thought to be badly burned. Should the cable snap the car will either slide directly down the remaining part of the plane or topple over into the Pennsylvania railroad tracks. The property destroyed belongs to the Pennsylvania Incline Railway company.

A Woman Goes Out to Gather Berries Meets a Horrible Death.

YORK, Pa., July 16.—Mrs. Michael Clemens, aged thirty-two years, was found dead last night in Small's woods, near Pleasantville, this county. Her dress over the breast was burned, and the body had two bullet holes in the neck and cuts on the head, hands and arms. She left the home of Franklin Hayes about 4 o'clock in the afternoon to gather huckleberries, and not returning, search was made for her.

The body was discovered by Rev. J. P. Koontz, and the deceased was on her hands and knees. A man's hat and suspenders were found near by, and there were indications of a struggle. It is generally supposed that the woman was outraged and then murdered. Details are meagre.

Italian Laborers Killed.

NORWALK, Conn., July 16.—Italian laborers, employed in digging a sewer in Westport yesterday were blown up by an explosion of a tank of naphtha and four fatally injured. Their names are unknown. The report of the explosion was terrific, and people in the village thought they had been shaken by an earthquake. Window glass in the vicinity was shattered, and the loss to property will be great.

Daring Robbery.

GUTHRIE, O. T., July 16.—The Dalton gang of robbers held up the M. K. & T. passenger train, southbound, at Adair, I. T., Wednesday night. The robbers drilled the safes and blew them open with powder, securing their entire contents. The amount stolen is believed to be in the neighborhood of \$40,000. They escaped.

To the Bar by the Back Door.

SPRINGFIELD, O., July 16.—The war against saloons at South Charleston has assumed a serious phase. Since council passed an ordinance requiring all screens to be taken down, exposing the bar to the street, the saloonists have nailed up the fronts, and only the rear doors are used.

Portrait Artists Burned Out.

WEST SOMERVILLE, Mass., July 16.—The West buildings, occupied by Sprague & Hathaway, portrait artists on Davis square, were burned, with their contents, last night. Loss, \$100,000; insurance, partial. Sprague & Hathaway did the largest business in their line in this country.

Steamship in Distress.

WILMINGTON, Del., July 16.—The steamship Elder is reported at Deep Water Point, in the Delaware river, three miles below this city, in distress. Nothing can be obtained here as to the nature of the trouble.

Died Abroad.

LONDON, July 16.—The death of Dr. Chidlaw, of Cincinnati, is announced from Dolgelly, Wales.

FINISHING THE WORK

Congress Getting Ready to Adjourn.

RUSHING BILLS THROUGH.

Nearly All the Appropriation Measures Have Been Acted on, and Only a Few Remain That Has Not Received the President's Signature.

WASHINGTON, July 16.—Congress is rapidly closing up its work on the appropriation bills, and already six of them have become laws. The president has signed and made laws of the agricultural, pension, river and harbor, Indian, postoffice and District of Columbia appropriation bills. The only one now at the executive mansion and not signed is the military academy bill. The clerks of the house are now busily engrossing the diplomatic and consular bill and it will go soon to the president, for it has passed both branches of congress.

The senate yesterday passed the conference report on the naval bill which was passed by the house on Thursday night, and it is being engrossed and will soon go to the president. The senate at 12:45 o'clock concurred in the conference report of the legislative, judicial and executive bill, and as soon as it is engrossed it will go to the White House. These three important bills have passed congress and by the end of the week will be laws.

The senate assented to a house resolution, extending existing appropriations for reports not yet acted on until July 30. It also passed the fortifications with amendments. Mr. Washburn, of Minnesota, under the impression that there was a deliberate plan to crowd out his anti-option bill by antagonizing it with appropriation bills and by other methods, warmly opposed and defeated a motion to adjourn over till Monday, and gave notice that he should call up his anti-option bill Saturday. Before the senate adjourned, however, Mr. Hall gave notice that he should call up the deficiency bill, which has a right of way, and should give way to senators who wished to take up unopposed bills from the calendar until 2 o'clock. This will probably prevent the anti-option bill being taken up today. The resolution providing for the Homestead investigation was not called up during the day.

The consideration of the sundry civil bill occupied the attention of the house, the world's fair appropriation of \$5,000,000 being the item under discussion. Mr. Durborrow, Democrat, of Illinois; Mr. Pendleton, Democrat, of West Virginia, and Mr. A. Taylor, Republican, of Illinois, made brief speeches in support of the proposition; Mr. McCreary, Democrat, of Kentucky; Mr. Little, Democrat, of New York, and Mr. Wheeler, Democrat, of Alabama, opposed it. It was agreed that a vote should be taken on the bill at 12 o'clock on Tuesday next. A resolution was passed calling on the postmaster general for information regarding the letting of mail contracts since March, 1889. The conference report on the army appropriation bill was also agreed to. The house took a recess until 8 o'clock for pension business.

DIAMONDS SEIZED.

New York Custom Officials Make a Valuable Haul.

NEW YORK, July 16.—The customs officials yesterday seized \$30,000 worth of diamonds from A. J. Bakus, a negro who was a passenger on the steamship Philadelphia, which arrived from La Guayra, Venezuela. A passenger on the same steamer was a handsome woman who registered as Mme. M. LeRoy, but who is notorious throughout Venezuela as "La Americaine." Bakus was arrested at the request of the Venezuelan consul general to await extradition papers. The negro was thoroughly frightened and told a disconnected tale, saying that "La Americaine" had stolen the jewels and given them to him for safekeeping. This story, however, the authorities do not believe.

Mme. Le Roy was seen at her hotel last night in regard to the matter. She expressed great surprise at the arrest of the negro but indignantly denied his story. He was, she said, the valet of Jesus Paul, a nephew of ex-President Pojas Paul.

Another story of the negro's jewels learned last night was that they were a portion of the jewels stolen from Mrs. Paul, Bakus' mistress. It was said that besides the jewels found on him, he has about \$100,000 worth more concealed.

Freight Wreck.

CONNERSVILLE, Ind., July 16.—Yesterday freight train No. 43 on the Cincinnati, Hamilton and Dayton railroad was run into by a wild engine and the wreck resulting caused a loss of probably \$10,000. The engine and cars were smashed into a mass. Engine 43 escaped across the bridge and was out of danger. The injured were Charles Iglehart, brakeman, of Hamilton; Edward Branham, brakeman, of Indianapolis, and Engineer Thompson, of Connorsville, none fatally.

Stevenson En Route to New York.

CHICAGO, July 16.—General Adlai E. Stevenson, Democratic candidate for the vice presidency, left for New York Friday afternoon over the Michigan Central railroad.

Funds for Tornado Sufferers.

SPRINGFIELD, O., July 16.—At noon \$6,000 had been raised for the tornado victims. The actual loss, as found by canvassing, is not over \$20,000.

M. Pasteur Improving.

LONDON, July 16.—The Lancet, the British medical journal, says that M. Pasteur is recovering from a mild attack of cholera.

WEATHER INDICATIONS.
For Kentucky, Generally Fair Saturday;

THE Western Christian Advocate, one of the leading Methodist journals of the country, thus compliments the Democracy upon their nominee for President: "The nomination by the Democrats of ex-President Cleveland is gratifying to all lovers of good government. He made an able and incorruptible Chief Magistrate, and should be elected will give the country a safe administration."

It is said the defeat of the Free Coinage bill by the House of Representatives this week will make 50,000 votes for Cleveland and Stevenson among the Germans of New York. Some Republican papers—the Commercial Gazette and others—are claiming that their party is entitled to all the credit for the defeat of the measure. Well, if the Republicans have given Cleve and Steve such a "boost" in the pivotal State of New York as above indicated they are a bigger lot of "suckers" than we ever imagined they were.

Call For Congressional Convention.

At a meeting of the Ninth Congressional Democratic Executive Committee, held at Maysville, Ky., Thursday, July 14, 1892, it was agreed and is hereby ordered:

First—That a delegate convention of the counties comprising said district be held at Carlisle, Ky., Tuesday, September 6, 1892, at 10 o'clock a. m., for the purpose of selecting a Democratic nominee for the office of Congressman for said district, to be voted for at the approaching November election.

Second—That each county shall be entitled to one vote for every two hundred, or one hundred and fraction over, of votes cast for the Hon. John Young Brown for Governor at the August election, 1891.

Third—It is recommended that all counties hold their county meeting on Saturday, September 3, 1892. CHARLES B. POYNTEZ, Chairman.
BEN E. ROE, Secretary.

THE STATE'S FINANCES.

Figures Showing the Condition of the Treasury on June 3.

At the time the State Treasury suspended payment an estimated condition of the funds in the treasury was all that could be obtained, says a special to the Courier-Journal from Frankfort. The books of both the Auditor's and Treasurer's offices have since been checked up and compared, and the actual condition of the funds at the close of business on June 30 was as follows:

SINKING FUND.	
Balance May 31.....	\$115,993 70
Receipts, June.....	16,548 02
Total.....	\$132,541 72
SCHOOL FUND.	
Balance May 31.....	\$343,236 02
Receipts, June.....	33,109 91
Total.....	\$376,345 93
Expenditures, June.....	19,286 87
Total.....	\$357,059 06
Balance June 30.....	\$189,286 87
GENERAL EXPENDITURE FUND.	
Deficit May 31.....	\$197,700 66
Receipts, June.....	116,107 95
Total.....	\$81,592 71
Expenditures, June.....	191,526 17
Deficit June 30.....	\$273,118 88
Balance in Treasury June 30.....	\$216,451 90

The deficit in the General Expenditure Fund is shown to be \$273,118.88, not as much by \$39,000 as was estimated on the first of the month.

Thus far the banks, under the ruling of the Attorney General that the Hewitt Revenue act is to govern the payment of taxes for this year, are paying their taxes into the Treasury promptly, about two-thirds of the number having already made reports, but aside from the banks the receipts, until the Sheriffs begin to make returns of the revenue collected by them, will be very light.

Call For Judicial Convention.

At a meeting of the Democratic Executive Committee for the Nineteenth Judicial district, held at Maysville, Ky., Thursday, July 14, 1892, it was agreed and is hereby ordered:

First—That a delegate convention of the counties of Bracken, Mason, Fleming, Lewis and Greenup meet at Augusta, Ky., Wednesday, August 3, 1892, at 1 o'clock p. m., for the purpose of selecting Democratic nominees for Circuit Court Judge and Commonwealth's Attorney for said district, to be voted for at the approaching November election.

Second—That each county shall be entitled to one vote for every two hundred, or one hundred and fraction over, of votes cast for the Hon. John Young Brown for Governor at the August election, 1891.

Third—It is recommended that all of said counties hold their county meetings on Saturday, July 30, 1892. J. A. WALTON, Chairman.
J. N. KIRK, Secretary.

Big Judgment and Big Fees.

Hardin County has won a suit against the Louisville and Nashville Railroad Company for \$241,000—interest for thirty years on \$300,000 stock subscription upon which the county was to have interest until the road paid a cash dividend, says the Western Argus. The suit has been pending since 1869, and the interest accumulating. More than \$70,000 will go to the attorneys, of whom W. P. D. Bush will receive \$33,838, J. P. Hobson, \$24,170, the widow of the late Judge M. H. Cofer, \$7,251, and the widow of the late Charles Wintersmith, \$7,251.

Congressional Convention.

The People's party will hold a convention at Augusta July 28, for the purpose of nominating a candidate for Congress in this district. Mason County is entitled to ten votes. Every voter in attendance from this county who endorses the Omaha platform will be recognized as delegates. WM. LUTTRELL, Chairman.

Highest Ever Reached.

The Superintendent of Public Instruction notified County Superintendent of Schools Blatterman that the appropriation for the public schools session of 1892-93 will be \$2.50 per scholar. This is the highest it has ever reached.

Killed by Lightning.

During the storm yesterday afternoon, Miss Donahoo, daughter of Thomas Donahoo, was struck by lightning and killed, at the home of the family between Dover and Augusta. She was seated at a window at the time.

THERE will be a meeting of the United Commercial Travelers this evening at 8 o'clock. All our traveling men are invited. R. B. OWENS, Secretary.

REV. C. S. LUCAS will conduct services at the Christian Church to-morrow at usual hours. Subject at morning service: "The Balances in Equipoise;" Jas. 2, 13. Subject of evening sermon: "The Mystic Manna and The White Stone;" Rev. 2, 17. All invited.

At the Central Presbyterian Church there will be preaching every Sunday morning at 11 o'clock. There will be no preaching service during the heated term, but the Y. P. S. C. E. will have interesting services every Sunday evening at 7 o'clock. To all these services the public are cordially invited.

The wife of Congressman W. C. P. Breckinridge died Thursday at Washington City. She was the daughter of the late Dr. Joseph Desha, and a descendant of Governor Desha. She founded the Hart Memorial Association, whose efforts placed the beautiful statue of Joel T. Hart in the rotunda of the Lexington court house.

Says the Jackson Hustler: "Judge A. E. Cole, of Maysville, is seeking the nomination at the hands of the Democratic party for Judge of the Court of Appeals. He is just finishing his second term as Circuit Judge in his district where he had already served twelve years as Commonwealth's Attorney. He is a man of high moral character. His experience and his ability give him peculiar fitness for the high position to which he aspires. We speak from personal knowledge, as we have been acquainted with him twenty-five years. He is a staunch Democrat and one of the best organizers in Kentucky. He has never been defeated, and if he receives the nomination his election will be certain."

BALLENGER'S NEW STORE.

Something About the Elegant Quarters He Has Lately Fitted Up.

Ballenger, the jeweler, has about completed the work of fitting up his new store adjoining Mitchell, Finch & Co.'s Bank, and it can be truthfully said that he has the most elegant business establishment in this city. In fact, in all its appointments it is right up with any jewelry store to be found in Cincinnati, New York or anywhere else.

A representative of the BULLETIN looked through the place yesterday. On entering one finds himself standing on a floor of Georgia marble tiling. On the left is to be seen a wainscoting three feet six inches high, and running the full length of the room, of highly polished marble also from the Georgia quarries. This is surmounted by a marble shelf, covered with bronzes and clocks of various patterns and designs. In the rear is an immense French plate mirror that reflects most everything in the room. To the right are arranged three long counters covered with show cases, and behind these are three large walnut show cases, all filled with silverware, art pottery and novelties in jewelry of every description. The space between the large show cases is occupied by large mirrors of French plate.

The entire establishment is illuminated at night by electric light furnished by Mr. Ballenger's own plant, which is operated by a water motor in the basement of the store.

Mr. Ballenger is now ready to receive his friends and former patrons and the public generally at his new place of business. All are cordially invited to call.

ALL the Presidential postoffices in Kentucky except Flemingsburg are now filled by Republicans, and the commission of the Postmaster at Flemingsburg does not expire until May, 1893.

At Miner's shoe store you will find another cut in prices of summer footwear. Just one look will convince you that the prices are away below the cost of making the goods. They must sell regardless of cost.

THE Republican State Central Committee met at Louisville this week to begin arrangements for the fall campaign. It is announced that they will make an aggressive canvass in every precinct in city, town and county.

THE three Democratic candidates for Circuit Judge in the Nicholas-Robertson-Pendleton-Harrison district are all "heavy weights." Judge W. W. Kimbrough kicks the beam at 210 pounds; Hon. Thomas Owens at 220, and Hon. Winfield Buckler at 210.

THE Greenup Gazette, a Republican paper, says: "James H. Sallee, Commonwealth's Attorney has been an efficient and pleasant officer. He has faithfully and well performed his duty to the State. His faithfulness as a public official deserves of his party a re-nomination which is equivalent to an election in this district."

THE venerable Mrs. Ann W. Coburn, of this city, now ninety-seven years of age, and yet, to a remarkable degree, in possession of her faculties, is on a visit to her nephews and nieces at Washington. She is an aunt of the Rev. Charles W. Forman, missionary, now on a visit to this country, also of Rev. Dr. E. Forman, of New Orleans.

APPELLATE JUDGE CONTEST.

Representation in Coming Democratic Convention—District Not So Strongly Republican.

In the coming Democratic convention at Catlettsburg—August 18th—to nominate a candidate for Judge of the Court of Appeals, the various counties will be entitled to the following votes on the basis fixed by the Executive Committee:

Bath	7
Boyd	5
Bracken	6
Bourbon	8
Bell	4
Breathitt	4
Carter	5
Clark	10
Clay	2
Elliott	3
Fell	5
Fleming	8
Floyd	5
Greenup	5
Harlan	1
Johnson	3
Jackson	3
Knott	2
Laurel	1
Letcher	4
Lee	2
Lewis	4
Leslie	1
Lawrence	1
Madison	11
Montgomery	6
Mason	10
Morgan	5
Maysfield	3
Martin	1
Menifee	2
Nicholas	6
Owsley	1
Powell	2
Perry	2
Pike	6
Robertson	2
Rockcastle	3
Rowan	3
Wolfe	2
Total	170

It will thus be seen that it will take a fraction over eighty-five votes to nominate.

While the Republicans carried the district by nearly 3,000 majority at the last Presidential election, yet the majority at the last gubernatorial election was not so large, being in the neighborhood of only 1,500. There was a mistake in the footings of the gubernatorial vote given a few days ago.

In the pamphlet issued by Colonel Castleman, late Chairman of the State Executive Committee, he places only thirty-eight counties in the district, overlooking Breathitt, Leslie and Knott.

BUSINESS OUTLOOK.

R. G. Dun & Company's Weekly Review.

TRADE AT DIFFERENT PLACES.

A Favorable Crop Report is Very Encouraging for All Lines of Business. Congressional Legislation Not Likely to Disturb Trade—Business Failures of the Week.

NEW YORK, July 16.—Dun & Company's weekly review of trade says: In all directions the business outlook is fairly encouraging. The crop report is much more favorable than was expected, the great labor controversies do not affect business unfavorably, but even help it for the present and there is now small prospect of any legislation by congress that is likely to disturb business in any department.

Crop reports promise results not equal to last year's, which would be disastrous, but beyond expectations. With the decrease of only 6 per cent., the wheat yield would be far beyond the quantity consumed, and exported in any year except the last year, and nearly equal to last year's consumption and exports. The price dropped below eighty-four cents, but has since been stronger. Western receipts are large, 1,800,000 bushels in three days, and exports 771,000 in the same time, but the quantity carried over from the last year is about 50,000,000 bushels.

Corn acreage shows a decrease of 4.4 per cent., and in condition 11.7 per cent., but since July 1 copious rains have greatly improved the prospect and the price has dropped three and seven-eighths cents during the week. Oats have also declined two cents, while hog products are stronger, pork twenty-five cents per barrel, and coffee and oil unchanged. The cotton report shows condition only 2 per cent. below last year, and on any estimate of acreage the yield, with the surplus still in sight, will more than meet all demands for the year. The price for the past week has not changed, though sales have been 618,000 bales.

Boston reports good trade, with boots and shoes particularly active and many demands for quick delivery. Leather is firm and higher and the factories are busy. Trade in dry goods is increasing with numerous western orders and manufacturers are operating freely in wool, sales being 3,300,000 pounds. At Philadelphia there are more inquiries for manufactured iron. Wool is firm, with manufacturers anticipating a heavy output of goods. At Baltimore exports of cattle are large and manufacturers make favorable reports, the packers especially realizing large profits.

Window glass is fairly active at Pittsburgh, but the iron mills generally are closed. Some improvement is seen in groceries at Cincinnati, and at Cleveland dry goods, hardware, groceries, clothing and cloaks are active, and trade is fair in other lines. Business is good for the season at Detroit, with crop prospects favorable. At Chicago business is larger than a year ago in dry goods, as large in clothing and shoes, and collections are better, while crop prospects are excellent, and business increasing. Decided improvement is seen at Milwaukee, and trade is good, with fine crop prospects at St. Paul.

At Omaha in all lines trade is larger than a year ago. Business is strong at St. Louis. At Kansas City receipts of cattle and grain are good, and trade is satisfactory for the season there and at Denver. At Louisville trade is fairly satisfactory, but not much improved at Memphis, quiet at Montgomery, and at Atlanta good, considering the unfavorable weather, which has done some damage to crops. At Savannah trade holds on well and money is easy. At New Orleans business is seasonably quiet and better than last year, with some improvement in the demand for money.

The output of pig iron July 1 was 169,151 tons weekly, against 171,115 a year ago, and the stoppage of many works has lessened consumption still more, so that reported stocks unsold largely increased in June exceeding 1,000,000 tons. Pig iron has been weak at the recent reduction in prices. The closing of many mills has greatly increased the immediate demand for finished prices, and prices are stronger, though contracts for future delivery are at old prices, and for beams the lowest ever quoted. Copper is weak at eleven and one-fourth cents, tin lower by three quarters of a cent on speculative liquidation, and lead weaker at 4.15 cents.

Wool is quite active with prices unchanged, manufacturers buying freely, sales for the year at Boston, Philadelphia and New York being 147,000,000 pounds against 134,000,000 last year. Business is active in dry goods for the season, clothiers being forced to pay advances on fall goods, while no change in price, but active trade is seen in spring goods. Cottons are strong, low grade brown and bleached goods being scarce and higher, and print cloths three and three-eighths cents for 64s. Boot and shoe shipments from the east continue much beyond last year's.

Money markets are abundantly supplied, though the treasury has taken in much more than it has paid out. Banks have been refusing certificates to gold exporters, and redemption of notes has drawn coin from the treasury which, nevertheless, holds as much gold as a week ago. The stock market has been inactive, with scarcely any change in prices for the week.

The business failures during the last seven days number, for the United States 168, Canada 22, total 190; as compared with 176 last week and 197 the week previous to the last, and 274 for the corresponding week of last year.

Death of an Ex-Senator.

SACRAMENTO, July 16. — Newton Booth, ex-governor of California, and ex-United States senator from this state, died here last evening. He was born at Salem, Ind., in 1825, and came here in 1850, engaged in mercantile business and later in the practice of law, and became prominent in Republican politics. He was also noted as an orator and writer.

"CARMENCITA"

Rest For the Weary,
Comfort For the Invalid,
And Luxury For All.

THE WONDERFUL PNEUMATIC CHAIR.

THE NOVELTY OF THE AGE.

It is the greatest invention of the nineteenth century. It combines all the essentials and comforts of the ordinary Rocking Chair with the feature of fanning its occupant with the perfumed breezes of fairy land. A bellows adjusted underneath the seat operates with the ordinary rocking motion and expels the air through the tube over the occupant, and the sensation produced is as agreeable as it is comforting and cooling. No flies to bother you. No mosquitoes to pester you. It's an indispensable piece of Furniture for all, but especially for summer resorts, club rooms, parks, theatres, hotels, hospitals and private offices. Its usefulness is unlimited.
